Your personal health consultancy in *Türkiye*

Treatment planning, partner hospitals and AI-supported second medical opinions, coordinated by one dedicated team from first message to recovery.

Treatment in Türkiye

AI-supported second opinion

Plastic & aesthetic surgery

ABOUT US

Health in Türkiye, made *easy*

> Easy Clinic Center was founded on **1 October 2020** with a clear mission: to make a difference through pioneering practices in our sector and to become a world health brand, guided by ethical principles, a distinguished team and a satisfaction-focused service built on international quality standards.

At our partner hospitals, treatments are delivered to international standards, supported by radiological imaging and advanced laboratory services. We treat your health as we would treat our own.

With specialist physicians, experienced nurses and a modern management approach, our aim is simple: quality healthcare, with a single team looking after every detail of your journey.

2020	7	08:30–21:00	14
Founded in İstanbul	Days a week at your service	Daily service hours (Türkiye time, GMT+3)	Partner hospitals & centres in 4 cities

Ethical

Transparent, hospital-based pricing and honest medical guidance.

International standards

Leading private hospitals with modern imaging and laboratories.

Personal

One consultant follows your case from first contact to follow-up.

WHAT WE DO

Personal health consultancy services

Whether you travel to Türkiye for treatment or stay at home and ask for a specialist's view, we coordinate everything around you.

Treatment in Türkiye

We match your case with the right specialist and partner hospital, collect quotes and organise every appointment, so you arrive with a clear plan.

- Specialist and hospital matching
- Hospital-based price quotes
- Plastic, aesthetic & all major specialties

AI-supported second opinion

Share your reports and imaging. Our AI-supported system prepares your case, a specialist physician gives their opinion and we send you a written report, with no long one-to-one appointments.

- AI-assisted analysis of your records
- Specialist physician review
- Written second-opinion report

Flights

Optional booking around your treatment dates.

Accommodation

Hotels close to your hospital for you and a companion.

Transfers

Airport, hotel and hospital transfers, with private vehicles.

Patient coordination

A consultant on hand 7 days a week throughout your stay.

SPECIALTY SPOTLIGHT

Plastic, reconstructive & *aesthetic* surgery

Plastic surgery is one of the most requested treatments in Türkiye. We work with experienced plastic surgeons at our partner hospitals for both aesthetic and reconstructive procedures, always in a hospital setting.

Face

- Rhinoplasty
- Facelift & neck lift
- Eyelid surgery
- Ear surgery (otoplasty)

Breast

- Breast augmentation
- Breast reduction & lift
- Gynaecomastia
- Breast reconstruction

Body

- Liposuction
- Tummy tuck
- Brazilian butt lift (fat transfer)
- Mummy makeover

Reconstructive

- Post-cancer reconstruction
- Scar revision
- Hand surgery
- Post-weight-loss body contouring

Pre-assessment before you travel

Your photos and medical history are reviewed so the surgeon can plan before you arrive.

Hospital safety

Operations take place in fully equipped private hospitals with intensive care units.

Recovery & follow-up

Post-op checks before you fly home and remote follow-up after your return.

HOW IT WORKS

From the UK to treatment, in three clear steps

You apply from the UK, we detail your medical case, and you receive hospital-based offers from Türkiye in two forms, so you choose exactly how much we arrange for you.

1 Apply from the UK

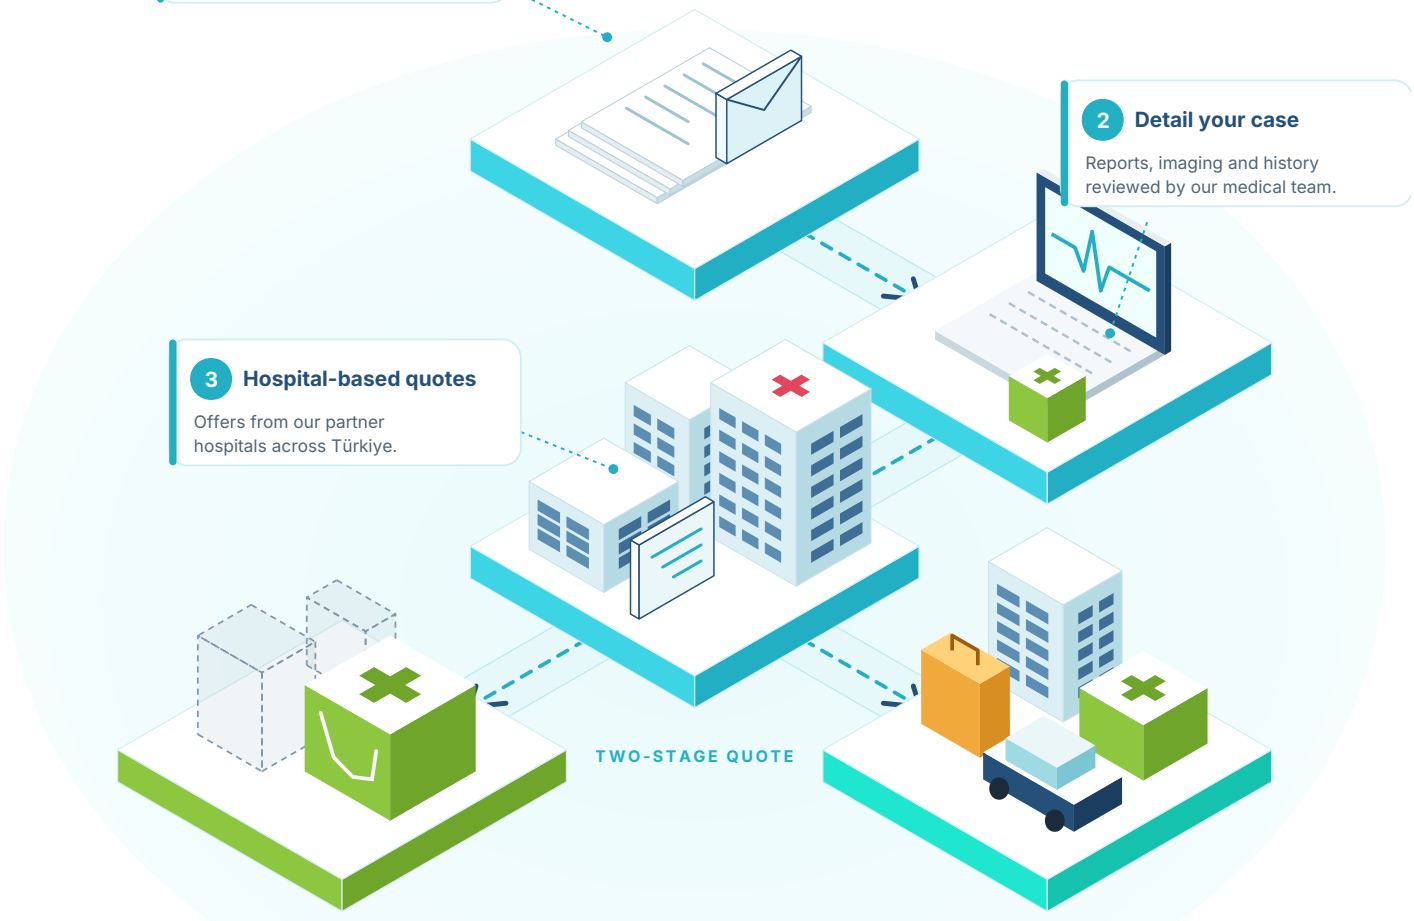

Send us your request online, by phone or WhatsApp.

2 Detail your case

Reports, imaging and history reviewed by our medical team.

3 Hospital-based quotes

Offers from our partner hospitals across Türkiye.

OPTION B

Treatment Only

Treatment price only. Flights, hotel and transfers stay optional add-ons.

OPTION A

All-Inclusive Package

Treatment + flights + accommodation + airport & hospital transfers.

YOUR QUOTE, YOUR CHOICE

A two-stage offer, tailored to you

For every case we prepare a quote per partner hospital. Each quote is offered in two ways: everything arranged, or the treatment alone with the rest left optional.

OPTION A

All-Inclusive Package

One price, everything arranged

Treatment
Hospital fees, specialist and procedure as quoted by the hospital

Flights
Return flights planned around your treatment dates

Accommodation
Hotel near the hospital for your recovery period

Transfers
Airport, hotel and hospital transfers included

Best for: patients who want a fully managed, stress-free trip.

OPTION B

Treatment Only

Treatment price, everything else optional

Treatment
Hospital fees, specialist and procedure as quoted by the hospital

Flights · optional
Add if you need it, or book your own

Accommodation · optional
Add if you need it, or book your own

Transfers · optional
Add if you need it, or arrange your own

Best for: patients who prefer to organise their own travel.

Quotes are prepared individually for each hospital after your medical case has been reviewed, so you can compare hospitals side by side before deciding.

OUR SOLUTION PARTNERS

Partner hospitals

We work with leading private and university hospitals in four cities. Tap **View doctors** on any hospital to open its official physician directory.

AI-SUPPORTED SECOND MEDICAL OPINION

A specialist's opinion, *powered by AI*

Our new AI-supported system lets you get a specialist physician's opinion without travelling and without lengthy one-to-one appointments. We put your case to the physician and report the answer back to you.

1

Upload your records

Reports, imaging (CD/DICOM), lab results and your current treatment plan.

2

AI-assisted case analysis

Our system organises your files into a structured medical summary and highlights the key questions.

3

Specialist review

A specialist at a partner hospital reviews the summary and your original files and gives their opinion.

4

Written report

You receive a clear report with the physician's evaluation and treatment options.

Faster

No waiting for appointment slots or scheduling video calls across time zones.

More focused

The physician's time goes into your case, not into collecting your history.

One-to-one only if needed

A live consultation is arranged only when the physician considers it necessary.

Good to know

Artificial intelligence organises and prepares your file; every medical opinion in your report is given by a qualified specialist physician.

What happens next

If you decide to be treated in Türkiye, your second-opinion file becomes the starting point of your hospital-based quote, so nothing has to be repeated.

EASY CLINIC CENTER

Let's plan your care together

Send us your request and a personal consultant will get back to you.
